### Task 1: Update Preparation

---

1. Backup your data file. For instructions to back up your data file, choose **Help** menu > **QuickBooks Help**. Search for **Back Up** and follow the instructions.
2. Download the latest QuickBooks Update. For instructions to download an update, choose **Help** menu > **QuickBooks Help**. Search for **Update QuickBooks**, then select **Update QuickBooks** and follow the instructions.

**NOTE:** If multiple computers do not use the same QuickBooks data file, skip step 3. QuickBooks activities such as **Online Banking** cannot be performed in multi-user mode because of the way the activities interact with a company data file.

3. Switch to single user mode. For instructions to switch to single user mode, choose **Help** menu > **QuickBooks Help**. Search for **Switch to Single User Mode** and follow the instructions.

**NOTE:** If you are not using Classic Mode (Register Mode), enable it for the update. You can change it back after the update is complete.

4. Enable Classic Mode (Register Mode).
5. For instructions to enable Classic Mode (Register Mode), choose **Help** menu > **QuickBooks Help**. Search for **Banking Feed Modes**, select **Bank Feeds Modes overview**, scroll down, and follow the instructions.
